

3. Creando una aplicación Android en Android Studio

New Project

Empty Activity

Create a new empty activity with Jetpack Compose

Name

ucbapp

Package name

com.calyrsoft.ucbapp

Save location

/Users/calyr/AndroidStudioProjects/ucbapp

Minimum SDK

API 24 ("Nougat"; Android 7.0)

i Your app will run on approximately **97,4%** of devices.
[Help me choose](#)

Build configuration language **?**

Kotlin DSL (build.gradle.kts) [Recommended]

i The application name for most apps begins with an uppercase letter

☐ Use legacy android.support libraries ?
Using legacy android.support libraries will prevent you from using the latest Play Services and Jetpack libraries

47         )
48     }
49 }
```

Revisión de los archivos de diseño y recursos

Modificando el archivo build.gradle

TOML

TOML aims to be a minimal configuration file format that's easy to read due to obvious semantics.

Práctica

Agregar la librería de retrofit

Agregar la librería de glide
